

Digital technology in the English curriculum (different in Scotland and Wales)

Computing - 3 strands:

- Computer Science:
 - Computational thinking was new/programming.
 - Information Technology:
 - Making with computers (multimedia)
 - Digital Literacy:
 - Implications & choices.
- Computing as a separate subject and mentions of technology in specific subjects e.g. design technology, geography
 - Difference between learning with and learning about technology
 - Lobbying for more information literacy/criticality
