Digital tools

AR Project: Book Creator

Borgsmoskolan

Kerstin & Danuta

Erasmus+

What we did:

Brief description of the project...

- We wanted the students to explore their own city.
- We wanted them to learn how to use new digital tools for example Book Creator and Jamboard. [Our BookCreator](#)
- We wanted them to get used to different ways of presenting their work.

Erasmus+

What was our question?

Why did you choose this project?

- We wanted to learn how to use Book Creator in our teaching.

What outcomes were you expecting?

- The students can use different types of abilities so it suits several students for example voice recording, make films, use pictures, design of the presentation etc.

What did you hope to achieve?

- All of the students had the possibility to take part because of the variations of methods.

What happened?

Brief description of what actually happened...

Prompt questions:

What were the positive/negative impacts of the project?

- The students were interested about the project and wanted to learn about how to use new teaching methods.

What outcomes were anticipated/ unanticipated?

- We anticipated that they would be motivated by the task, and they were.

What were you surprised by?

- We were surprised by the fact that everyone participated.

What did we learn?

What did you observe?

- We were surprised how students with special needs could participate without any problems.

What did teachers / pupils learn?

- Teachers and students cooperated and learned how to use the digital tool together.

How did behaviour change?

- We saw that students that usually don't take the leadership, now were very active.

What will we change?

Brief description of how teaching practice will change as a result of the action research project...

What will you do again?

- We will use Book Creator in our ordinary teaching to engage students.

What will you do again but differently?

- We will encourage the students to present their work in front of their class as they get more used to the tool.

What will you stop doing?

- ?

What questions do we have now?

Brief list of questions/further areas for investigation following the project...

- Our project is still in progress...
- We will follow up the work with a city walk and GPS Quiz.
- At the end we will do an evaluation to find out what the students thought about the project.
- We are very positive to use this kind of teaching method in the future with other classes.
